

SALAWUDEEN NABILAT AJOKÉ

Junior Frontend Developer | React.js | JavaScript

nabilatajoke@gmail.com | 0906 535 7814 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Junior Frontend Developer with three internship experiences building responsive, user-friendly web interfaces using React.js, JavaScript, HTML5, and CSS3. Skilled in translating design mockups into functional, cross-browser web pages and collaborating effectively within development teams using Git-based version control workflows. Currently completing a B.Sc. in Software Engineering and seeking junior frontend, React.js, or remote web development opportunities.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frameworks/Libraries: React.js

Tools: Git, GitHub

Concepts: Responsive Web Design, REST APIs, Component-Based Architecture, DOM, UI/UX Principles

PROJECTS

Academic Plagiarism Detection System — Final-Year Research Project

React.js, Python (Flask)

- Developing a web-based academic plagiarism detection system, building the frontend interface in React.js and backend functionality in Python Flask.

PROFESSIONAL EXPERIENCE

Software Engineering Intern (SIWES) — Data Quotient Technology

2025 · 6 months

- Completed a six-month industrial attachment within a professional software development environment, gaining hands-on exposure to real-world engineering workflows.
- Worked on frontend development tasks, collaborating with team members to deliver assigned features on schedule.
- Participated in professional development workflows, including version control, code reviews, and task management, as part of a collaborative engineering team.

Frontend Developer Intern — Tripledote Technology

2024 · 6 weeks

- Built and styled responsive UI components using HTML, CSS, and JavaScript.
- Translated design mockups into functional, cross-browser web pages.
- Collaborated with teammates to maintain UI consistency and improve interface quality across multiple pages.

Software Developer Intern — Madros Technology

2023 · 3 months

- Developed and maintained web pages as part of a small development team.
- Gained hands-on experience with Git version control in a collaborative development workflow.
- Contributed to building clean, standards-compliant frontend code.

EDUCATION

B.Sc. Software Engineering — Osun State University (UNIOSUN), Nigeria

2022 – 2026 (Expected)

Relevant coursework: Data Structures, Software Design, Web Technologies, Databases, Human-Computer Interaction

Final-Year Research Project: Academic plagiarism detection system built with React.js and Python Flask.

CORE STRENGTHS

Problem Solving · Team Collaboration · Attention to Detail · Adaptability
