PROFESSIONAL SUMMARY

Frontend developer and Software Engineering graduate with three software development internships and hands-on experience building responsive websites, React components, forms, dashboards, and API-connected interfaces. Experienced in debugging existing applications, collaborating with Git, and translating interface requirements into functional web experiences. Seeking frontend, React developer, and graduate software engineering opportunities.

TECHNICAL SKILLS

Frontend: JavaScript (ES6+), React.js, HTML5, CSS3, Tailwind CSS, responsive design, React Hooks

Development: REST API integration, reusable components, forms, dashboard interfaces, debugging, DOM

Tools & collaboration: Git, GitHub, code review, task workflows

PROFESSIONAL EXPERIENCE

Software Engineering Intern (SIWES) | Data Quotient Technology | 2025 | 6 months

- Developed and maintained responsive websites and landing pages, including frontend layouts and user interfaces.
- Built React components, forms, and dashboard interfaces for web applications.
- Connected frontend interfaces to APIs to retrieve and display application data.
- Debugged and improved existing websites and application interfaces; collaborated using Git and code reviews.

Frontend Developer Intern | Tripledot Technology | 2024 | 6 weeks

- Implemented responsive web pages and interface components with HTML, CSS, and JavaScript based on design mockups.
- Collaborated with teammates to maintain visual consistency and improve interface quality.

Software Developer Intern | Madros Technology | 2023 | 3 months

- Developed and maintained web pages as part of a development team.
- Used Git for collaborative development and supported assigned frontend implementation tasks.

SELECTED PROJECT

Academic Plagiarism Detection System | React.js, Python, Flask

- Built an academic plagiarism detection application with a React frontend and Python/Flask backend, integrating the user interface with server-side functionality.

EDUCATION

B.Sc. Software Engineering | Osun State University (UNIOSUN), Nigeria | 2022–2026

CERTIFICATIONS & PROFESSIONAL REGISTRATION

Frontend Engineering — Data Quotient | Certificate of Completion, September 2025

Graduate Registration (GMCPN) — Computer Professionals (Registration Council of Nigeria) | September 2026–September 2028

Employability Skills Training — Jobberman Nigeria / Mastercard Foundation | Certificate of Attendance
